

Responses received to additional questions

Potts Point Partnership
Mr Carrington Brigham

Can you please provide any further evidence of local residents' attitudes to the suite of changes made to the Liquor Act in 2014?

Dear Joint Select Committee,

For your question on notice we asked residents to complete a poll survey into the liquor laws act 2014.

Survey Presentation (Confidential)

<https://pottspointpship.typeform.com/report/VxdNHO/soXmhsG3D02QQWdc>

Attached: Raw data that has been cleaned of duplicate entries

We had 393 responses in 4 days. 16 responses were duplicates leaving you with a true result of 377 submissions to the survey. We sought this information through Potts Pointers, the local residents Facebook group that is a closed and vetted group for locals and businesses that the Residents and the Partnership manages. We expect there is a number of residents and businesses that would have submitted a survey but overwhelmingly looks to be residents with the information that has been provided and captured.

In addition we asked for postcodes and email addresses (optionally). Here is the link for your private use. Should you wish to make this public please advise and I will hide the email addresses and names. Attached is the raw data.

To clarify question 5m that starts with 'Safety' these questions are ranked from 1 being the 'worse impact' to 5 representing 'better impact'.

Conclusions from the survey

We did not influence the residents and or businesses to support our recommendations in this survey. We provided clear questions for 'for' or 'against.' We asked for responses and they were submitted within 4 days.

The results are overwhelmingly clear.

1. The residents and businesses support strong change. **70% combined and 40% said "No" lockouts are not good with 30% "have gone way too far and now need to be changed"**

2. Have answered 62% that the laws have **"gone in the wrong direction"**

3. Interestingly 47% of residents said that the area's safety is about the same with 20% opting it's much better

4. **40% of residents say the local economy is the most important issue** for Potts Point & Kings Cross with 'Health & Safety' at 5% of respondents choices

5. All residents have overwhelmingly told us that these issues are seriously impacting our precinct:

a. **Night-time culture 72% worse off**

b. Live Music 68% worse off

c. Business Success 63% worse off

d. ID Scanners 53% worse off

e. Safety 30% about the same

6. Respondents overwhelmingly support the recommendations put forth by the Potts Point Partnership with:

a. **52% of respondents supporting ALL** of our recommendations provided to you in our submission

b. 31% supporting all of our recommendations with the exception of relocation for the Medically Supervised Injection Centre

c. 14% that do not support any of our recommendations including no changes to lock-outs

Let's get right to the point: Do you believe the lock-outs have been good for Kings Cross?	OK, how do you feel about the general direction of the liquor laws and their impact on Potts Point & Kings Cross	Thanks, and how do you feel about the safety in our area as a result of the changes to the liquor laws?	Thanks again. Just a couple more questions to go. Which of these topics is most important to you for our precinct? (1 choice only)	Other	Safety	Night time culture	Business success	Live music	ID scanners	Should the NSW panel recommend and agree to the following changes put forward by the Potts Point Partnership? • Immediately removing the requirement for ID scanners in the Kings Cross precinct • Extending the lockout deadline to 3.00am for venues with more than 100 patrons, for a period of three years • Removing the ban on purchasing spirits/shots after midnight • Establishing a 'Good Neighbour' policy to reduce vexatious noise complaints, in cooperation with the City of Sydney • Establishing a tourism campaign to promote Potts Point (Kings Cross) as Sydney's best-known night time destination to experience • Reviewing the Medically Supervised Injection Centre location	Full name	Your Postcode?
