Sydney Fringe Festival
Ms Kerri Glasscock

1. What is your view of having the Small Business Commissioner co-ordinate night time economy policy?

There is definitely merit in having the Small Business Commissioner co-ordinate night time economy policy, however my concern would be that the unique issues related to the night-time are incredibly detailed and integrated. I would love to see a Night-time Economy and Cultural Commissioner as a stand-alone office. Working with Government under a Strategic Plan for the night-time.

a) Would this be best done stand alone, or in company with the Department of Premier and Cabinet?

The ideal scenario would be that Premiere and Cabinet set the plan for the Night-time, commit to resource a timeline for change and work collaboratively with the office set up to have carriage over it be that Small Business Commissioner or a Night-time Economy and Cultural Commissioner or the like.
