

## LEGISLATIVE ASSEMBLY

Committee on Investment, Industry and Regional Development

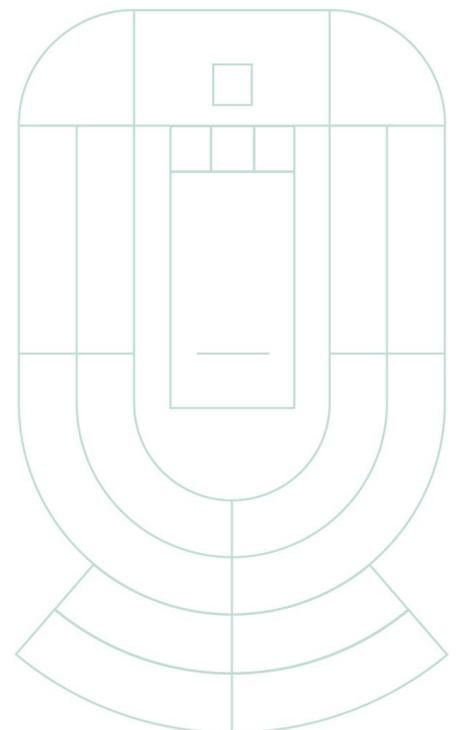

### Performance of the Regional Investment Activation Fund and the Regional Job Creation Fund

#### Questions on Notice

Central NSW Joint Organisation

1. Regarding the question on notice, Mr Clancy was referring to the [Interim Government Response to the independent Modern Manufacturing Taskforce Report \*Making it in NSW\*](#). More specifically, page 4 of the Government Response states that "a more detailed response to the Report will be delivered via the development of the NSW Government's Modern Manufacturing Strategy, due for release in 2023".

Have you seen anything of the NSW Government's Modern Manufacturing Strategy mentioned in the Interim Government Response above? If so, please provide feedback.

**Answer**

I haven't seen anything further and thanks for sending that through. However, I will make the comment that strategy in regional development is an area that is very poorly executed and rarely implemented. It typically looks backwards and that we are not manufacturing renewables to any extent in regional NSW, particularly for wind, is a travesty.
