

## **Answers to questions on notice and supplementary questions: Public Service Association of NSW**

We have now had the opportunity to consult extensively with our members in relation to both the Questions on Notice and the Supplementary Questions.

What is unfortunately clear from these consultations is that there has been virtually no dialogue between the RFS and our members in terms of the design or operationalization regarding the CCEP, over and above those we raised in the Hearing. The case of the CCEP has been a clear example of top-down implementation where consultation with those charged with its use has been kept to the absolute minimum and highlights the unions concerns with transparency within the RFS.
