**Re: HCCC's 2021-22 and 2022-23 annual reports – RCPA Feedback**

Dear Dr McGirr,

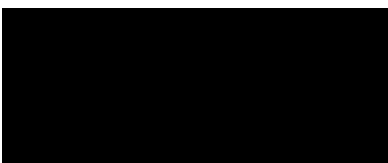

Thank you for your correspondence received on Monday 12 August seeking the RCPA's feedback regarding your 2021-22 and 2022-23 annual reports.

Our comments are based on timeframes for review, investigation and reporting.

Investigations can have a considerable impact on a medical practitioner. From our view, timelines need to be as short as practicable, and there is a need for robust support mechanisms available for practitioners who are the subject of a complaint and/or investigation.

If you have any questions, please feel free to make contact.

Sincerely

Dr David Andrews  
**CEO**
