

Outsourcing Community Service Delivery

Date Received: 25/04/2012

Partially Confidential

Privatisation of ADHC run Group homes will cause unnecessary grief to Families, Clients and Staff. A number of ADHC clients have had previous accommodation in NGO's which has failed to meet their needs. Long serving staff of ADHC will find it stressful finding alternate employment and many will suffer hardship financially. ADHC have given staff limited information and no action plan on proposed implementation of privatisation. Clients will have their lives disrupted by major changes and many will experience behavioural changes and possible health issues as a result.
