Dear Mr Gee,

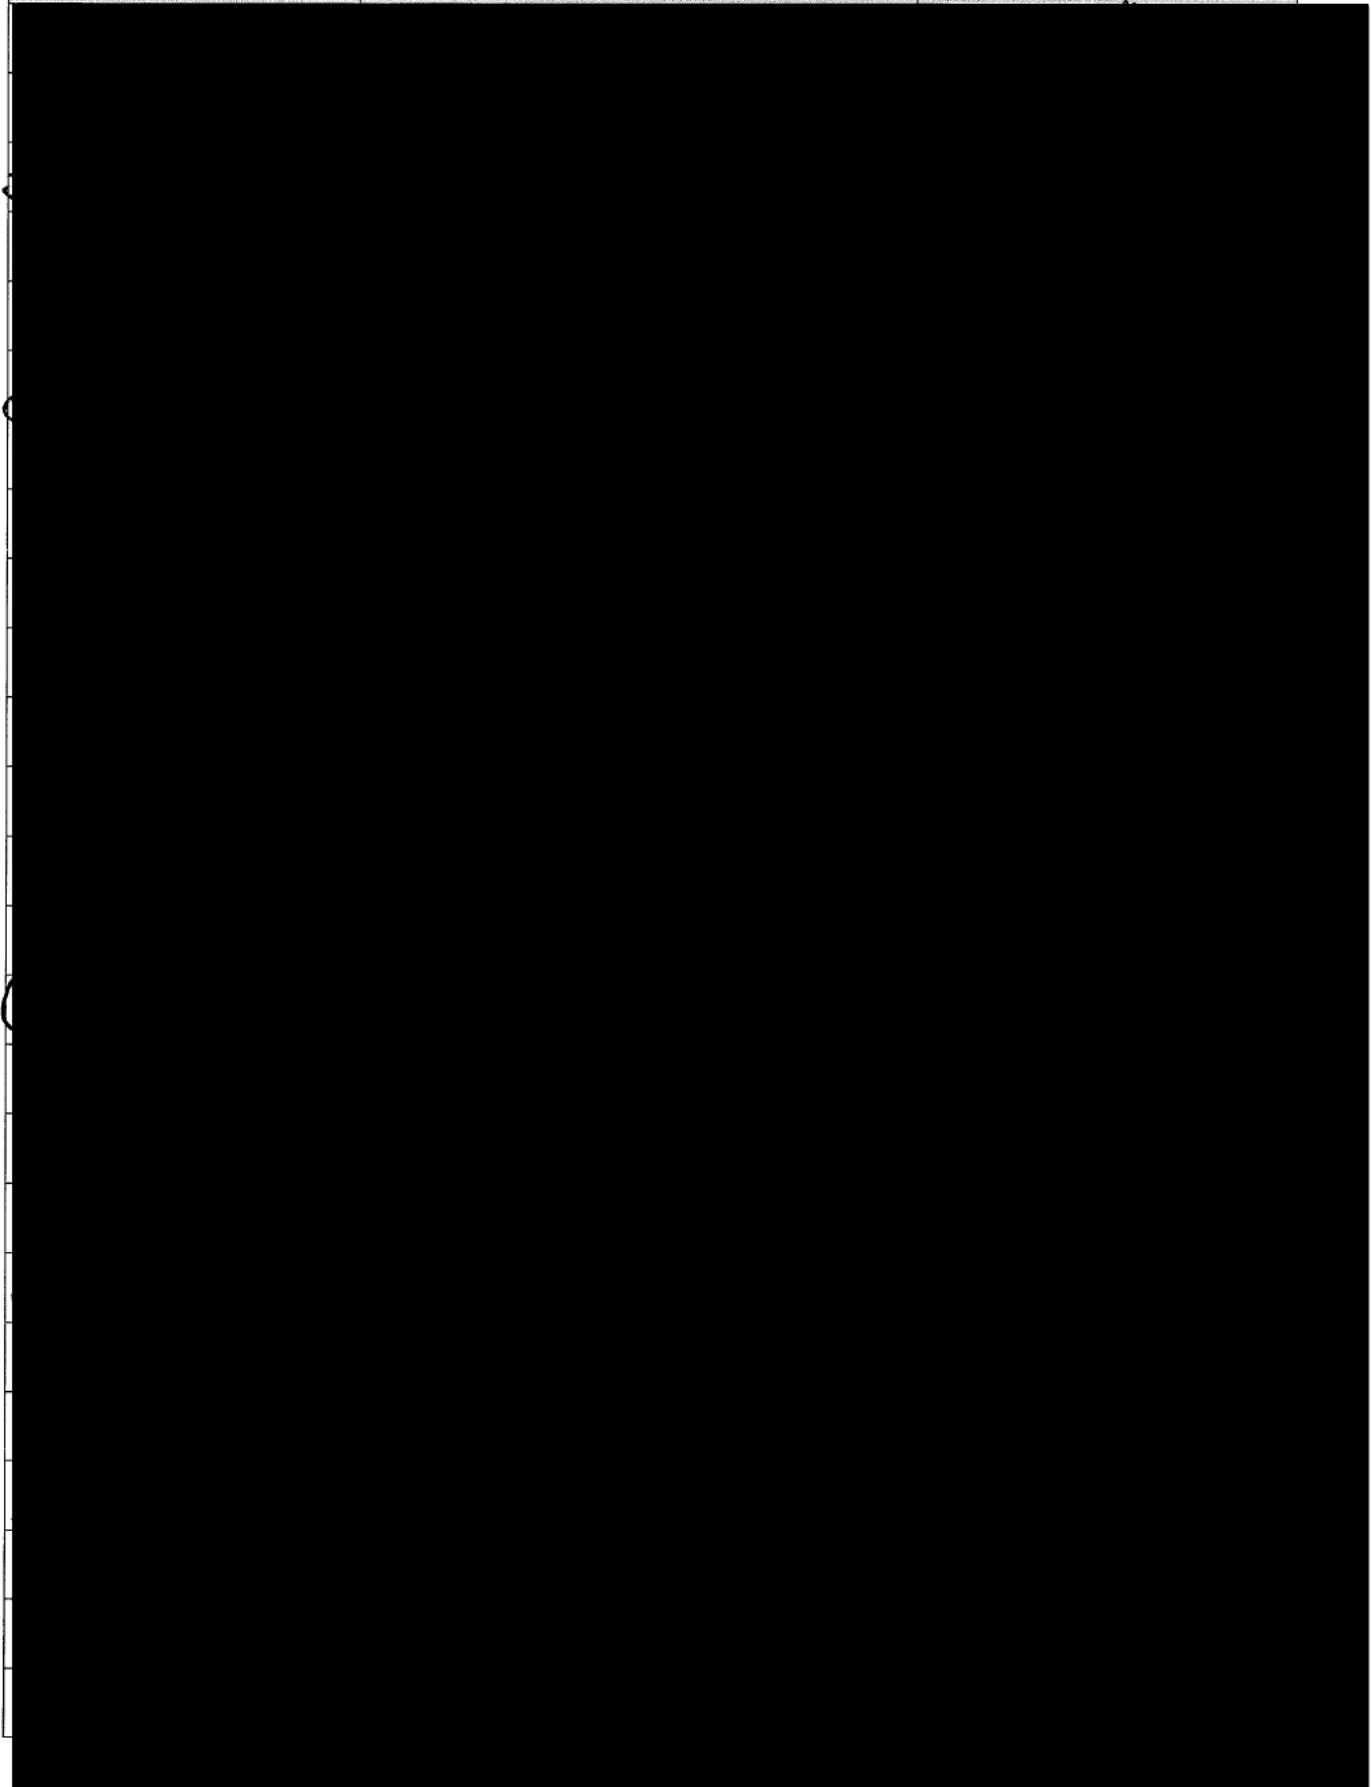

**RE INQUIRY INTO DOWNSTREAM GAS SUPPLY AND AVAILABILITY IN NSW**

We, the undersigned residents of Burrawang are aware that consideration is being given by your Committee to improving the gas supply to rural villages in New South Wales.

Many of us are required to purchase bottled gas at great expense because there is no gas pipeline to Burrawang and the need for gas for heating is great in the winter months. Accordingly, we request that your Committee gives favourable consideration to any proposals which will enable piped gas to be supplied to our village.
