## **NON-REGISTERED MOTORISED VEHICLES**

**Name:** Ms Scootergirl Wong

**Date Received:** 30/04/2013

Hello, would like to make comment in respect to the Hawkesbury LGA based on personal witness:

- male riders (from 14yrs to 35yrs) seen riding motorised bicycles without helmets, or riding on wrong side of road, or without lights or without reflective clothing at night
- was threatened by one young boy who purposely rode his motorised bicycle towards me as i stood still to admire him and his friends riding their motorised bicycles
- wondering if there is a relationship between use of motorised bicycles and the loss of driver's licences
- notice much uncertainty if motorised bicycles are legal on nsw roads
- wondering if there are serious incidences of injuries with all terrain vehicles
