COMPANION ANIMAL BREEDING PRACTICES IN NEW SOUTH WALES

Name: Mrs Toni Eaves

Date Received: 13/06/2015

I wish to add my voice to the call for greater regulation, accountability & focus on the welfare of animals.
Therefore I support:

- limiting the number of animals breeders can keep
- compulsory licencing of ALL breeders which is enforced
- regular inspections of licenced breeders
- compulsory of micro chipping of companion animals
- The NSW Animal Welfare Code of Practice – Breeding Dogs and Cats should be revised to ensure that the existing guidelines it contains become enforceable standards. Enforceable standards for other species must be developed.

Thanks & regards

Toni Eaves
