Macquarie Street,
Sydney NSW 2000

Attention: Bruce Motley-Smith M.P. (Chair).

Re: Inquiry into provision of
alcohol to minors.

Dear Sir,

Because of driving licences issued at 15yrs of age, lets give teen ages a turn at driving without the temptation of booze for a few years & raise the drinking age to 21 years. a lot of parents will support me here.

Most parents whether they are single, heterosexual, gay, disability, pensioned would be happy to only provide booze to minors on special occasions e.g. 21st, 50th, weddings etc at a recommended amounts e.g. 3 drinks between say 3pm-12am.

Wine is potent - its full of activating chemicals (Champagne is deadly) that stirs drunkenness quite quickly. It dries skin & causes ragginess in skin as well. You may have to employ some sort of monitoring system (which won't be popular) to keep an eye on social matters.

Yours

Regards - Karen Newton. (No reply required)
