To who it may concern

I am a clinical nurse consultant who has been working at the Sydney Medically Supervised Injecting Centre in Kings Cross for the past three years, where some of the clients are sex workers. I currently support the decriminalisation of sex in NSW, as it helps to reduce stigmatisation, protects sex worker's incomes and it equates to excellent public health outcomes (e.g. NSW has the lowest rate of HIV positive sex workers in the world). If legislation and conditions change in NSW I am very concerned that these positive outcomes will dramatically reduce.

Yours Faithfully,
