To whom it may concern,

As migrant sex worker, I feel safer and able to access clinics and services under decriminalization in NSW rather than licencing model of Victoria.

Licensing creates environment where we are restricted and therefore easier for workers to be illegal. When illegal, we cannot go to police and more difficult to access health services.

Human rights organization and health organization supports decriminalization as best model. NSW should not only keep this model but also be proud of being the world leader in protecting sex workers.

Yours Faithfully,
