As a decriminalised Sex Worker in NSW, I have rights. I have access to police help if I need it and I don't worry about being abused by police should I need their help. As a citizen on NSW, I will continue to fight very hard for my decriminalisation and the decriminalisation of my clients.

I put in an honest days work just like everybody else! In a job that suits me. I'm passionate about my work, I feel safe in my work. Why should I be criminalised for that?

NSW has been progressive for the past 20 years while we have had decriminalised sex work. It would be a travesty to undo all of that good work. Criminalisation does NOT now, nor has it ever worked.

I will fight for my rights. I refuse to be criminalised for simply going to work every day. I will fight for all of my clients NOT to be criminalised. I will fight for my fellow sex workers to remain as safe as possible while simply doing Thierry job.
