

## NON-REGISTERED MOTORISED VEHICLES

Name: Name Suppressed  
Date Received: 1/04/2013

Partially Confidential

I have no objection to the elderly or disabled riding mobility scooters on footpaths or roadsides providing it is done with care.

I do strongly object to the riding of trail and quad bikes on public lands and roads, especially in residential areas.

I live in the small village of Seaham, once pleasantly quiet, now no longer so, thanks to a plethora of mainly young persons riding trail and quad bikes without any apparent parental control.

Not only can this activity be dangerous to motorists and pedestrians but the noise produced is most disturbing.

Please supply me with a copy of the current law relating to the above.
