Subject: Waste Management Systems by Stormwater Systems

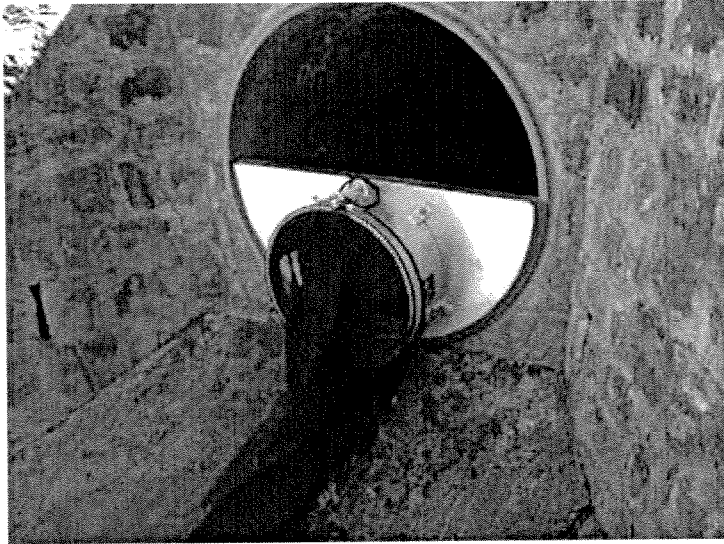

Hi,

Following your enquiry into Waste management systems here is some information on our company Stormwater Systems which has been involved in pollution control in and around Sydney's waterways.

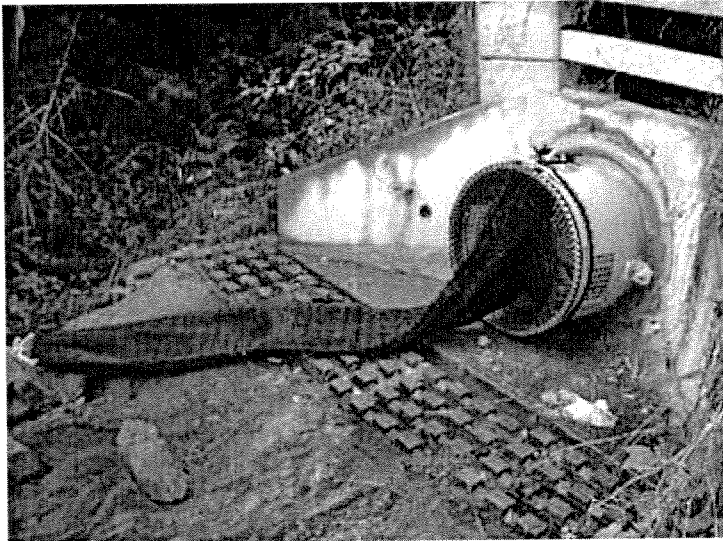

Below is a brochure with the necessary links to the website.

Please contact me if you have any further questions our information that you may like.

<p>Pratten Traps in Action.</p>	<h3>StormWater Systems Products & Services</h3>
	<h4>End-of-pipe Traps (Gross Pollutant Traps)</h4> <p>End-of-pipe traps capture gross pollutants at pipe outlets before discharge into the sea or rivers. The traps are inexpensive to install, easy to maintain, and can be designed for any pipe or water flow. Click here to learn more.</p>
	<h4>Booms</h4> <p>Booms placed across waterways capture high levels of floating pollutants, including oils, and are highly cost-effective. Stormwater Systems has installed many booms and detention systems and can advise you on the right one for any situation or location. Click here to learn more.</p>
	<h4>Cleaning</h4> <p>Regular cleaning and maintenance of gross pollutant traps improves their efficiency and protects our waterways, Stormwater Systems' knowledge and range of tailored services can help you. Click here to learn more.</p>
