11th June, 2015

Dear Committee Members,

Hunter Animal Watch Inc. submits the following to the **Joint Select Committee on Companion Animal Breeding Practices in NSW.**

Hunter Animal Watch made a Submission on 7th June, 2015. We now add to that and ask that the Committee also consider the following issue, which we did not include originally. This is the matter of "backyard breeders".

We have found that, unintentional, or even intentional, breeding of dogs and cats, can become a problem in certain circumstances, for example, in high density housing or housing where there is little fencing to contain the animals.

Yours truly,

**Olga Parkes**

**Hon. Sec.**

**Hunter Animal Watch Inc.**
