Sexualisation of children + young people Inquiry.  
To whom it may concern,

I am extremely concerned about the content of the material being thrust at our school children without our parental knowledge or permission. This is particularly with the SAFES SCHOOL PROGRAM. I feel it should be renamed the DANGER SCHOOL PROGRAM, as Walt Heyer suggested. (Google him). shouldn't <sup>we</sup> be getting on with teaching how to Read, write + spell + figure sums.

My shakles we raised when my 4 yr old piano student told me that it's okay for her to marry a girl when she grows up. She was taught this at day care!!

Is the school encouraging traditional marriage to our children, as well or is it only one sided. I totally disagree with touching the sexuality discussion at all. It should be left for parents to teach their children moral values-not the schools.

Yours sincerely,
