Re: SEXUALISATION OF CHILDREN
AND YOUNG PEOPLE (INQUIRY).

I am writing to express my concern about the Department of Education's blatant role in encouraging the sexualisation of children at a young age, and in actively promoting the LGBT lifestyle in its SAFE SCHOOLS PROGRAM.

This program introduces topics to young people that are totally inappropriate and suggests thoughts to young people about changing gender at puberty + adolescence - when young people are trying to develop their own character and work out who they are.

It encourages sexual experimentation and initiation, a casual attitude to STI's and provides no moral compass at all.

I suggest strongly that this program be scrapped.
