Mr Adam Marshall MP  
Committee Chair  
Committee on Community Services  
Macquarie Street  
**SYDNEY NSW 2000**

19 July 2016

Dear Adam,

**Re: Access to Transport for Seniors and Disadvantaged People in Rural and Regional NSW**

I refer to the Terms of Reference as provided below.

**a) Specific issues relating to the transport needs of seniors and disadvantaged people in rural and regional NSW.**

Seniors and disadvantaged people in rural and regional NSW require transport services to access medical appointments, undertake business activities, and participate in social activities and events.

The current issues surrounding access to transport services include:

**Availability**

Limited services are available in the Narrabri Shire and it is difficult for those requiring the services to schedule their appointments to accommodate these limitations.

**Cost**

Whilst some services are available within the area, all are provided by private companies and attract a cost which is not affordable to the majority of people requiring these services. The high cost of these services is also due to the small population base.

**Timetabling**

This can be difficult because of a smaller population base.

**Location**

Due to the spread out nature of regional towns with smaller population base it only makes financial sense to have a few bus stops in a town for the bus company. This means that only a few people close to the bus stop could actually benefit from the service. For the majority of seniors or disadvantaged persons who may find it hard to walk it would be impossible to get to a stop.

**b) Accessibility of current public transport services in rural and regional NSW**

Public transport services within Narrabri Shire are currently provided by Wolters Bus Service. The attached documents provide details on the available routes and the associated costs to each service.

**c) Potential strategies to improve access, including better alignment between different modes of transport, available routes and timetabling generally**

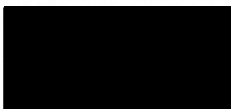

- Running smaller buses to more stops around a town enabling seniors and disadvantaged people easier and closer access to the service.
- As an alternative to purchasing a dedicated vehicle to undertake a specific task that may only be used intermittently, the purchase of a more general style of vehicle that could be used by a wider client base may be more practical.

**d) Support that can be provided to seniors and disadvantaged people to assist with the costs of private transport where public transport is either unavailable or unable to meet the needs of these groups**

- The provision of a subsidised taxi service or Uber driver that provides a door to door service.
- Provision of payments to Meals on Wheels or other community organisations and/or existing town services to transport people within specific boundaries within the Shire.

I trust this information is to your satisfaction and invite you to contact me on (02) 6799 6866 if you wish to discuss this matter further.

Yours sincerely,

Tony Meppem

**DIRECTOR DEVELOPMENT AND ECONOMIC GROWTH**
