Submission No 8

## EXAMINATION OF THE AUDITOR-GENERAL'S PERFORMANCE AUDIT REPORTS JULY 2015 — JANUARY 2016

**Organisation:** Transport for NSW

Name: Mr Stephen Troughton

**Position:** Deputy Secretary

**Date Received:** 26 September 2016

Mr Bruce Notley-Smith MP Parliament of NSW Macquarie St SYDNEY NSW 2000

Dear Mr Notley-Smith,

## **Performance Audit: Sydney Metropolitan Bus Contracts**

I refer to your letter of 6 September 2016 regarding the above mentioned performance audit. I am writing to provide you with an update on the actions taken to date in relation to the recommendations of that audit.

Transport for NSW has undertaken a detailed review of all ten audit recommendations and has implemented management action plans for each recommendation.

As requested, a summary of Transport for NSW's response to the audit recommendations and details of actions taken to date are enclosed in the recommended table format.

Transport for NSW will continue to progress any remaining actions as relevant, including implementing further improvements to processes and systems.

If you have any further questions regarding this matter, please contact Ms Jenny Birch, Director, Metro Service Delivery & Performance on PH: (02) 8202 2867.

Yours sincerely,

Stephen Troughton
Deputy Secretary
Infrastructure & Services

Transport for NSW
Sydney Metropolitan Bus Contracts

	RECOMMENDATION	ACCEPTED OR REJECTED	ACTIONS TO BE TAKEN	DUE DATE	STATUS (completed, on track, delayed) and COMMENT	RESPONSIBILITY (Section of agency responsible for implementation)
1	In its future decisions on determining a purchaser-provider approach for Sydney metropolitan bus services, refresh its review of academic literature and contemporary strategies adopted elsewhere to maximise value for money and assess their potential application		TfNSW will refresh its future procurement strategies based on recent experience with bus contracts. This will include a review of academic literature and contemporary strategies.	30/06/2017	ON TRACK Contract terms vary: SMBSC for PBO (tendered) 5 years + 3 year option SMBSC for PBO (negotiated) 7 years + 1 year option SMBSC for STA (negotiated) 5 years + 2 year option Anticipate work on new contracts will commence one year prior to end of initial contract term. A refresh has already occurred for integrated services under the Newcastle contract. Further work will occur in 2017.	Service Delivery and Performance
2	Work towards a full purchaser- provider model for STA's contract regions, with clear separation of accountabilities and a similar incentive regime to private operators		TRINSW acknowledges the findings to work towards a full purchaser-provider model for STA's contracts, noting that this recommendation will be subject to government decisions and directions to go to market for a new contract.	30/06/2017	ON TRACK STA Contract term is 5 years + 2 year option Anticipate work on new contracts will commence one year prior to end of initial contract term (2017).	Service Delivery and Performance
3	Continue to work with STA to reduce costs		TfNSW will continue to work with STA to reduce costs	30/06/2017	ON TRACK TfNSW has negotiated an additional \$10.5m in contract savings for 15/16, on top of the already identified efficiencies. TfNSW will continue to work with STA to reduce costs.	Service Delivery and Performance
4	Impose penalties on private operators for failure to meet the start-of-trip punctuality target, except where there is a contractually defined Excused Performance Incident		Ongoing TfNSW Contract Management Process.	30/06/2017	ON TRACK TRNSW continues to closely monitor bus contract performance including compliance to KPIs and inclusive of On Time Running (OTR) and will apply contract abatements as determined under the contract and contract management plan.	Service Delivery and Performance
5	Introduce stronger incentives for operators to achieve mid-trip and end-of-trip punctuality targets		TfNSW will continue to manage mid-trip and end of trip punctuality targets operationally to improve punctuality and will investigate other options which may be available under the contract. Operators have been informed of the findings of the audit report in this regard, and are investigating options to improve performance in these areas.	9/03/2017	ON TRACK TfNSW continues raise the need to improve mid and end point OTR and is seeing improvements in some contracts. The assessment is now standard discussion in monthly contract meetings. As a result, a number of operators are reviewing current midpoint locations and timetables and are implementing changes to improve midpoint and end point OTR. Where additional trip time is required TfNSW has stipulated this is to be at the operator's cost.	Service Delivery and Performance
6	Take further steps to generate improvements in STA punctuality	•	TriNSW supports this recommendation and is actively working with STA on a number of projects to improve punctuality. A Strategic Governance Committee oversights the STA reform program to drive improvement. In addition, an STA On Time Running Working Group has been established comprising representatives from STA and TFNSW's contract management and planning areas to identify the root causes and remediation action.		ON TRACK Work is continuing with STA to improve OTR. Additional funding from TfNSW has been made available to STA to improve On Time Running Performance.  A State Transit / TfNSW OTR Working Committee has been established to manage this process and monitor performance change. Currently STA advises that it will implement service changes to improve OTR in Contract 6 commencing late 2016. Contract 9 commences February 2017. Contracts 7 and 8 are to be determined.	Service Delivery and Performance
7	Classify a trip as cancelled where the trip is not tracked for reasons other than technical reasons, unless operators can prove otherwise			9/03/2017	ONGOING TRNSW is enhancing PTIPS to allow the operator to mark a trip as "cancelled" in near real time, and during end of day processing, to either mark as "cancelled" or provide evidence that the trip has operated.	Service Delivery and Performance
8	Revise the current KPI on passenger and driver security monitoring to make it relevant and measurable		TfNSW will investigate the best course of action to address this issues by either modifying the wording or refreshing the KPI and enacting the order requiring all new buses to have security systems.	9/03/2017	ONGOING The intent of the indicator is working as TfNSW can retrieve CCTV and other footage as a result of new bus specifications. However, TfNSW will review this KPI and make it stronger in next round of contracts.	Service Delivery and Performance
9	Enhance its electronic information systems so they generate discrepancy reports automatically			9/03/2017	ONGOING TTNSW is working on delivering improved reporting systems and has introduced OSD Exchange to identify changes in services by Operators to better monitor changes.	Service Delivery and Performance
10	Improve its internal controls over decisions to waive penalties and acceptance of cure plans		Agreed.	9/03/2017	ONGOING TfNSW has a full sign off process in place required for applying and waiving any KPI outcome.	Service Delivery and Performance
