## **COMMUTER CAR PARKING IN NEW SOUTH WALES**

**Organisation:**

**Name:** Mr Kristin Carville

**Position:**

**Date Received:** 12 July 2017

The commuter parking for a number of stations along the Richmond line are inadequate and need immediate attention. Car parks are now filled well before 7am, which includes street parking, and this means many commuters are unable to get parking for their trip in or have to park and walk a long way. This is a safety concern at night, particularly during winter months when it is darker earlier. This area is seeing substantial population growth which is also at a rapid rate, so the parking situation is only going to get worse unless something is done now.
