Date Received: 28 July 2017

Submission No. 18 – Mr Madhukar Joshi

A good Govt. is one that has vision and proper implementation of good plans for development. As the population and economy is growing rapidly in the western Sydney suburbs the basic facilities are not improved - specifically at Quakers Hill and Scofield where the commuters parking is far far below the actual need . Despite several attempts in past it seems that there is no one who cares. However, we shall not stop our efforts till we succeed.
