COMMUTER CAR PARKING IN NEW SOUTH WALES

Organisation:

Name: Mrs Pratima Kaur

Position:

Date Received: 2 August 2017

When you are spending money on infrastructure to promote western sydney. Keep in mind most of the people are from working class with young families. If we decide to leave kids to school and go to work our main problem is parking .when forces us to start early and spend less and less time with families. I leave home at 5:30 am every morning to get parking and i cannot miss that as i know i wont find parking after 6:30am at schofields or Quackers hill and bus frequency is also not great. It would be such great help if we have multi level parking
