COMMUTER CAR PARKING IN NEW SOUTH WALES

Organisation:

Name: Mrs Carly Vumbaca

Position:

Date Received: 2 August 2017

Commuter parking at Quakers Hill and Schofields train stations.

Something HAS to be done regarding this! I live in the area and work in the CBD. So many times I have tried to park at both stations to catch the train in as would be a much quicker commute rather than the bus, to only get to the stations and not be able to find ANY parking!

There are so many new houses being built and in turn more people to our beautiful communities, but lack of public transport and parking. Multi story parking would be ideal at these stations so everyone has the opportunity to park, not just the ones that are luck enough to get there at the crack of dawn!

Please help us commuters be able to get to work!

Thank you
