COMMUTER CAR PARKING IN NEW SOUTH WALES

Organisation:

Name: Mr Brian Goodey

Position:

Date Received: 1 August 2017

The existing car parking space at the Railway Station at LISAROW 2250 is far too small for the number of commuters using this station.

A much larger area is needed to cope with the frustrated drivers that cannot leave their car there.

My suggestion is to develop the vacant land at the intersection of The Pacific Highway and Chamberlain Road (opposite the Station) or, along the northern side of the railway line.

Sincerely,

Brian Goodey
