

REVIEW OF ROAD SAFETY ISSUES FOR FUTURE INQUIRY

Name: Taylor Shaw

Date Received: 6 September 2018

Change the 4wd modification laws, vehicles with larger tyres and suspension lifts are being unfairly targeted in the name of safety yet they have not been contributing to accidents or fatalities anywhere in the country, the lengths in which the qld government is going to fine modified 4wd owners is absolutely disgraceful and simply a cash grab, nsw needs to set an example for other states and show some common sense with these outdated laws.
