ADMINISTRATION OF THE 2019 NSW STATE ELECTION

Name: Mr Antony Green

Position: Election Analyst

Date Received: 16 March 2020

Amendment to Submission

At the bottom of Page 3 in my original submission, I had the following sentence as the fourth dot point under "The Growth of Pre-Poll Voting"

- In its submission to JSCEM, the AEC reported that within district pre-poll votes have risen from 11.3% in 2010 to 32.5% in 2019, within another 4.1% as outside of district pre-poll declaration votes.

These figures are the total percentage of pre-poll votes, not of within district pre-polls. The correct sentence should be –

- In its submission to JSCEM, the AEC reported that within district pre-poll votes have risen from 7.5% in 2010 to 28.2% in 2019, within another 4.3% as outside of district pre-poll declaration votes.

Yours,

Antony Green
