I support the Religious freedom and Equality Bill-2020

Respected Sir/Madam,

Religious freedom and the right to practice your faith and religion is the basic human and constitutional right. The western civilization is based on Christian-Judea principles and values. It's important that we uphold that in our society. I am a Christian and I have the right to practice and preach my Christian faith without the fear of being persecuted and discriminated, it's my constitutional rights.

I should not have fear to say that "I AM A CHRISTIAN", fear has no place in the western society. We should uphold the right of religious freedom in our country, Australia.

Regards
Lijine John
