## Religious Freedom

To the Members of New South Wales Parliament.

As a citizen of New South Wales, and as a Christian, who was brought up in a society where religious freedom was never an issue. It grieves me greatly that we are now being threatened, yes I say threaten to have our religious freedoms taken away. Although I am a Christian, I believe that religious freedom is for all religions.

I truly believe that taking away our religious freedom is a form of control over what we believe or not believe.

I am a person who takes my responsibility as voter seriously. Do the right thing by not allowing the Religious Freedom Bill to take away our freedom to worship, whatever religious belief the citizens of this country follow.

Yours sincerely,  
Susan Perkins,
