I support Mark Latham's Bill. I do not live in NSW but I have seen how current laws in NSW can negatively affect people in Queensland.

Nobody should be taken to court for wanting to protect their children and other people's children from inappropriate associations. Parents have a right to speak in the best interests of their children.

Mark Latham's Bill defends important rights and freedoms for the people of NSW and it could lead to better protections in other states.

Regards,
Julie Simonds
