Religious Freedoms Bill

To Whom it May Concern

I write to show my support of the Religious Freedoms bill as proposed by Senator Mark Latham.

I believe it is essential to preserve the religious freedoms that our country has been built on and thrives on. To restrict this basic right of every Australian goes against the democratic process of every Australian having the freedom to worship and live according to their belief system and faith. This includes in their work environment.

Thank you for receiving my letter of support for the Religious Freedoms bill.

Yours Sincerely
B J Brown
