Religious Freedom Bill

Attention

NSW Parliament in regards to Mark Latham MLC's Anti-Discrimination Amendment (Religious Freedoms and Equality) Bill 2020, which is co-sponsored by Fred Nile MLC

I ask that the law will prevent discrimination against people based on their religious belief or religious activities.

I support clause 22Z, The State should be neutral towards religion.

The Folau case was so much against the Australian way. What a disgrace to our Nation this case even happened.

Our Nation was built on Judeo Christian Values..

What did our Anzac's fought & died for? Not this.

Freedom of choice is the birth right of all Australians without any Discrimination.

We are not playing games or politics.

This is real. People count and need to feel safe, respected & protected by the law.

I support the inclusion of a new clause 3. Ensuring all rights are equally treated.

Religious institutions should be allowed to pursue their religious purposes by those who share the same religion in employment and in certain other contexts, and the proposed section 22M does this very well.

I remember most of my life being governed by mutual values, respect, consideration, thinking of the other person.

Not all about me, governing bodies and educational institutions increasingly imposing codes of conduct that improperly restrict private religious activity.

I trust you will support this bill 100%.

Thank you.
