SUPPORT FOR RURAL AND REGIONAL LEARNER DRIVERS

Name: Mrs Lynn Starkey

Date Received: 1 April 2021

I have a suggestion about rural teenagers learning to drive. A dual control vehicle could be purchased as a one off item by the government for rural high schools. Bus drivers/taxi drivers etc who are professional drivers could then go in during their off time (in Glen Innes there are only school buses and the drivers are "free" during school hours) and take students out for practice either as a volunteer or paid a small amount for their time.
