Dear Public Accounts Chair and Committee,

Please see below our agency response to your letter dated 13th May 2021.

Local Land Services (LLS) manages approximately 6,500 Travelling Stock Reserves (TSRs). The TSR network covers an area of some 535,000 hectares across the State and is used for a variety of purposes including moving livestock and biodiversity outcomes. Improvements on these reserves, such as fences, dams, windmills and other water infrastructure, are at varying degrees of condition and age. A project is currently being finalised to identify and revalue improvements on the TSRs along with certification of the valuation process. It is expected this process will be completed as a part of the 2021 Financial statement preparation.

If you have additional queries or concerns, please do not hesitate to contact me on [REDACTED]

Kind regards,

[REDACTED]

Acting Chair

Local Land Services
