MOBILE SPEED CAMERA ENFORCEMENT PROGRAMS IN NSW

Name: Mr Jan Phillip Trevillian

Date Received: 6 July 2021

I put a submission in earlier today but I left an important part out. Could you add this to it please? One of the reasons people rail against this is they claim they are being booked for being a couple of kilometres over the speed limit. It is not written down anywhere but is well known that you wont be booked until you go 10% over the speed limit. This is to negate this argument and to eliminate a slight error in the readings. A relative of mine has been driving just under 10% over the speed limit all his life and has never been booked.

The undisputable fact is that if you obey the speed limit you wont be booked . The only reason it raises any revenue is because the offender CHOOSES to exceed the speed limit. Or they can be like me and obey the speed limits and never get booked

We have all seen the horrific accidents purely down to speed, kids being wiped out walking along a footpath, whole familys being wiped out by some speeding idiot not taking a turn and hitting them head on. If you want that on your concience, go ahead, make it easy for speedsters to speed.

Jan Phillip Trevillian
