## **MOBILE SPEED CAMERA ENFORCEMENT PROGRAMS IN NSW**

**Name:** Mr Michael Chara

**Date Received:** 4 July 2021

Mobile speed cameras do not save lives, they are a simple revenue raising scheme. Government paid advertisements stating that mobile speed cameras save lives simply cause distrust towards the government.

During these times, it is important people have faith in their government. A government that lies about the benefits of mobile speed cameras should not be trusted when releasing covid statistics to its people.
