EMBEDDED NETWORKS IN NEW SOUTH WALES

Name: Mr Jonathan Moore

Date Received: 22 June 2022

Since moving into this premises in December 2020 we have found the cost of our utilities increase. On raising this with the supplier at the time and asking for clarification of our bill we were told that these bills were correct and we should "take shorter showers".

Note: our previous residence was a 4 bedroom house with a garden, we are now in a 3 bedroom apartment with no garden.
