## **SYDNEY METRO WEST PROJECT**

**Name:** Mr Samuel Austin  
**Date Received:** 15 August 2023

The Metro West is a critical piece of infrastructure needed in Sydney. Additional public transport services are critical for the function of our city now and into the future. Upzoning around stations is also important to help address the housing crisis, and ensure affordable new homes can be built into the future.

I strongly feel the project should continue despite cost blow-outs.
