E-CIGARETTE REGULATION AND COMPLIANCE IN NEW SOUTH WALES

Name: Mrs Sinilia Radivojevic

Date Received: 18 September 2023

I am a volunteer from Cancer Council as a MP Liaison for Fairfield, Cabramatta, and Liverpool. In my local area, anyone can purchase e-cigarettes without knowing what is in, what goes into the flavors and so on and without the need to show any age as a show of maturity such as what is required for cigarettes and alcohol, similarly harmful substances.

I believe it is in the best interests of the state government to regulate the sale of e-cigarettes so as to reduce the inevitable burden on our public health system to which these e-cigarettes will contribute to.
