## **HISTORICAL DEVELOPMENT CONSENTS IN NSW**

**Name:** Miss Wendy Wait

**Date Received:** 28 May 2024

Zombie DAs have to become a thing of the past. The Tura beach proposed Zombie development is over 30years old and the land and environment and laws have changed since then.

A thriving forest and wildlife corridor now exist on this proposed development site and numerous wildlife depend on this forest for survival including the yellow bellied glider.

This Zombie DA should not be allowed to eventuate and the laws around all zombie developments up the east coast of Australia require urgent review and assessment. DA applications need an expiry of less than 5 years and not forever.. This is insane!
