HISTORICAL DEVELOPMENT CONSENTS IN NSW

Name: Mrs Josephine Beams

Date Received: 31 May 2024

I am adding my voice to the collective call for an Immediate Moratorium for all N.S.W. zombie D.A. s . I live near to Brunswick Heads on Bunjalung country. I am deeply concerned that the proposed development by Clarence Holdings (a zombie D.A.) which seeks to destroy, against the wishes of the indigenous custodians , an area of irreplaceable and unique habitat. This D.A. slipped through without adequate scrutiny taking advantage of the distractions of covid. It is now clear that this would not have been passed if scrutinised by today's standards and is a crime against nature and various species facing extinction . It is clearly a precious irreplaceable nature reserve which would not pass on today's standards. Please call a moratorium on this Zombie D.A. so that it can be scrutinized by today's standards of environmental protection. I join with others and call for a moratorium on All zombie D.A. s in N.S.W. please act for the environment with intelligence and integrity. Sincerely. JOSEPHINE BEAMS
