HISTORICAL DEVELOPMENT CONSENTS IN NSW

Name: Mr Greg Shearer

Date Received: 3 June 2024

The proposed "zombie" development at South West Rocks will have a negative impact on the historical, cultural and environmental aspects of this community. The local community feels that oversized developments, not in line with community expectations, will have a lasting detrimental effect on their lives as well as altering the above aspects of South West Rocks.

Please reject the proposed development of South West Rocks.

Greg Shearer
