

**Submission  
No 212**

## **HISTORICAL DEVELOPMENT CONSENTS IN NSW**

**Name:** Mrs Celia Farquharson

**Date Received:** 3 June 2024

I request the committee review the Development Application For Section 13 Mirador Estate and require the developers to resubmit it because:

The area has great environmental importance as a wildlife corridor to a fresh water lake.

Much of the surrounding area has been developed leading to erosion and lack of habitat for endangered species eg. Greater Glider, Glossy Black Cockatoos, and Potoroos.

The land is very steep and the removal of old growth trees will contaminate the creek that runs through the area and through a rainforest area with a Weir which has historical significance.
