**PROPOSALS TO INCREASE VOTER ENGAGEMENT, PARTICIPATION AND
CONFIDENCE**

Name: Ms Marelle Burnum Burnum

Date Received: 6 August 2024

Any political party who runs their campaign on certain issues and makes promises to achieve or implement those policies needs to be made accountable to do so under law if elected under their term of office .

Teenagers should be eligible to vote at 16 years of age but not compulsory till 21years If they are keen enough and have the understanding of political parties they will register to vote when 16 years of age ..

At 21years of age people should be fined if they don't vote or do a donkey vote .

Indigenous politics need to have their direct connection and elders report directly to the government with their requests and concerns .

All parties need to have a certain amount of money allocated for their campaign and no more . No donations even smaller parties have the same financial opportunity

The campaign rests on the parties platforms and policies not on how much money they have to advertise and influence

More referendums need to be held to ensure the people are being represented and not just a parties idea

I feel the idea of parties segregates people . Ideally we need qualifies people working together as a team for the best outcome for humans and the planet . Team that works together for the common good

Priorities need to be people and animals and the planet before profit

Voting should be with pen not digital. Postal for those that are incapacitated

We need a spiritual component in politics and drug addiction addressed asap providing many rehab facilities paid by their Centrelink payments for residential up to a year with a The person needing rehab must go for treatment for a year

No drugs or injections forced on an individual ever
