Hi there I seen your post.

My little boy [REDACTED] has really bad febrile convulsions due to the situation we actually had to move away from wee waa to be closer to the hospital in Tamworth incase of after hour care as getting into Narrabri at night could of been a risk that I didn't want to take over my time in wee waa I had to go stay at Ronald McDonald house as it was our only option with one giving birth being really sick even something as getting fulid for my dehydration for my pregnancy I couldn't get from wee waa my whole family are from wee waa so for us to have to move away and not let our kids grow up where my mum lived was hard I'm sure wee waa will lose a lot of family's with the hospital hours.
