**IMPACTS OF THE WATER AMENDMENT (RESTORING OUR RIVERS) ACT
2023 ON NSW REGIONAL COMMUNITIES**

I'm a Mudgee resident and I'm concerned about the proposed toxic water capture for use by Bowdens Silver mine.

You can't guarantee they will control 924 mega litres of toxic runoff in various dams near clean water sources.

Bowdens can't guarantee it either.

Should a mining company be prioritised over the health of tens of thousands of rate paying citizens, and their livelihood in the region?
