HEALTH SERVICES AMENDMENT (SPLITTING OF THE HUNTER NEW ENGLAND HEALTH DISTRICT) BILL 2025

Name: Ms Kathleen Denniss

Date Received: 14 April 2025

Currently health services in our area, North West NSW, are declining and it is believed that not enough funding is being spent on our health services. Narrabri and Wee Waa deserve better. Our contribution to GDP is significant and yet many people are moving away and not wanting to live in our area due to poor health services. Country people deserve the same health treatment as those that live in more urban areas.
