**HEALTH SERVICES AMENDMENT (SPLITTING OF THE HUNTER NEW
ENGLAND HEALTH DISTRICT) BILL 2025**

Name: Laurie White
Date Received: 24 April 2025

since 2022 I have had treatment for Lymphoma and had treatment at the Inverell Hospital, the nursing staff where very professional in the way I was treated, there wasn't any problems with the way the nurses set-up the intravenous tubes and started my course of Privigen, I was born in 1948 and if there were times when there were visits to the Inverell Hospital way back when, the hospital was run by a local board of directors and the hospital ran very smoothly, what I can't understand is why this cannot continue in Northern NSW without the interference of Hunter New England Health. I do hope there are more than I passing on ideas to see if we all can make a difference in a change to this matter at hand. Kind regards Laurie.
