**HEALTH SERVICES AMENDMENT (SPLITTING OF THE MURRUMBIDGEE
LOCAL HEALTH DISTRICT) BILL 2025**

Name: Mr Rene Brummans

Date Received: 30 October 2025

Local people need to be involved with their own hospital

The benefits go way beyond just financial cost or cost benefits.

I believe that patients will have better health outcomes because more patients can be treated at the hospital having their families supporting them

There is less need for family to travel to see the patients which can be a huge burden on family and friends if they have to travel to wagga.

Better decisions made here will make for better outcomes.

Any power play by those in Wagga Wagga is only for one reason , greed and control.

Decisions made along those lines are never good decisions.

Thanks
