**HEALTH SERVICES AMENDMENT (SPLITTING OF THE MURRUMBIDGEE
LOCAL HEALTH DISTRICT) BILL 2025**

Name: Name suppressed
Date Received: 18 December 2025

Partially
Confidential

Went to Griffith emergency department a few years ago after an episode with my heart, after checkups n check overs I was told to take some medication that was given at the hospital department, if wasn't for a friend visiting that i find out the medication I was given was actually for the patient next to me after taking it. I refused to go to this hospital after many incidents in my time. My partner who has had cancer complications in recent years, went to Griffith hospital for chronic pain and complications with breathing, she was told she's too young for it to be cancer...one of many sickening comments from medical staff at the Griffith base.
